We are going to be operating on two different plans this year:

1. **NO SCHOOL** - If we feel the weather is too bad to attempt to have school.
2. **DELAY** - If it appears that the roads will be clear enough to run buses at a later than normal starting time, a delay will be announced. The amount of delay time will also be announced.

When school is starting on a delayed basis, **NO ATTEMPT** will be made to run the following roads, **morning or afternoon**, in each district. Parents are asked to either meet the buses at the end of each road or drop off / pick up students at school.
